

Susan G Abbott

Artist's Statement

Susan G Abbott is contemporary landscape painter working in acrylics, living and working in Toronto.

"Abstracting the landscape into essential forms allows for deliberate use of color, and exploration of color relationships. Works are often started with a loose pastel drawing to block in the shapes, where I am seeking movement, balance and a sense of space whether flat or deep. Finding exactly the right combinations of color is a quest achieved through frequent repaintings of passages until I am satisfied, sometimes over a period of months.

"I have been showing and selling my work since 2001, in group and solo shows, and on my website."
